

## **CompKeeper Product Overview**

CompKeeper is the first software application that will completely implement a [market-based, merit pay](#) plan for an organization. CompKeeper is a skillfully crafted software application designed to integrate survey data from the most reliable sources such as: Watson Wyatt Data Services, Mercer, WMG, Radford, AEA, and Culpepper & Associates into an organization's market-based compensation plan. It is easily installed on your desktop or lap computer. CompKeeper fully integrates the development and maintenance of your plan from job descriptions to salary ranges to a merit budget.
